

CAMC Bursary

This year CAMC created a \$500 student bursary to be awarded to the Air Cadet with the highest academic standing in the Advanced Aviation Technology Course – Aircraft Maintenance. That new course was held at the Air Cadet Summer Training Centre at Canadore College in North Bay, Ontario. Sixty air cadets participated in the six-week, English and French summer camp.

CAMC is pleased to congratulate this year's winner, Cadet Brant Zeeman of 351 Squadron in Markham, Ontario. Cadet Zeeman says he has put the CAMC bursary money toward buying textbooks and course packs for his first year at the University of Toronto in TrackOne Engineering.

Air Cadet Brant Zeeman displays his Captain W.M. Boyle Award trophy and 2008 CAMC Bursary at the graduation ceremony on August 15.
